

**Chilton Baptist Association**

**February 25-26, 2012**

**OMC CHURCH TEAM  
TRANSPORTATION COORDINATOR**

The task of the Church Transportation Coordinator includes ensuring that all details of the guest missionaries' travel on Sunday, February 26, 2012 are handled effectively and efficiently.

*Travel on Sunday, February 26, 2012*

1. Enlist drivers carefully. Enlist persons who are capable drivers and know the locations of the churches. Make sure they have suitable cars and time to take the missionary to their next location on Sunday.
2. You may want to enlist husband and wife or women drivers to transport women missionaries.
3. Make a list of drivers and inform them of the names of the missionaries, where to pick them up (work with the Association OMC Transportation Coordinator), where the churches are in which they will be speaking (include maps if drivers don't know exactly where the church is), and the times the engagements begin.
4. Because the missionaries often have to set up displays or technical items, and so forth, encourage drivers to discuss with the missionary how much set-up time they will need.
5. Have a back-up plan in case a driver becomes ill or has car trouble.
6. The Association will provide a map of our Association churches highlighting the churches you will be traveling to. Give a copy of this map to all individuals involved in transporting guest missionaries on Sunday, February 26, 2012.
7. Plan transportation for your church to attend the "Mission Fair" Saturday, February 25<sup>th</sup> at Liberty Hill Baptist Church from 9:00 A.M. – Noon and the "Missions Rally" at Jemison First Baptist Church beginning at 6:30 P.M. on Saturday night, February 25<sup>th</sup>.
8. One week prior to OMC 2012, meet with all individuals involved in transporting guest missionaries to ensure that everyone has the list of drivers, church locations, housing location, times of various engagements, names of guest missionaries, and telephone number to call in case of an emergency. Allow sufficient time to answer all questions.
